

FOR BUILDINGS, COMMERCIAL, INDUSTRIAL, MEDICAL & OF COURSE YOU.

Inbuild AQM
Monitor, manage, and improve indoor air quality.

Let`s See What We Do?

We offer property developers of large industrial and commercial sites a comprehensive AQM that regularly publishes air quality updates on integrated signage using a central management system.

Let`s See Who We Are?

InBuild AQM - the company is a provider of an innovative air quality monitoring (AQM) device and software for monitoring the air quality by utilizing machine-learning, calibrated low-cost sensors.

Our Services

Dashboard Management

Real time report: Monitor the parameters and show on dashboard

Cloud-based Centre

Cloud gathers data and analyzes patterns. Analysis the trend of AQM.

Machine Learning Sensor

Capture patterns in the general context. Alert deviation of air quality health index
